Who We Are

Zenphry IT Services LLC is a minority-owned small business based in Frisco, Texas. We help public sector clients improve operational performance, modernize business systems, and implement practical technology solutions that support mission execution, service delivery, and organizational efficiency.

We are an execution-focused firm. We do not just deliver strategy. We stay through implementation and make sure the work gets done.

Core Services

- Business process redesign and workflow automation
- CRM and enterprise systems modernization
- Technology transformation and implementation support
- PMO, project coordination, and execution support
- Dashboard, reporting, and decision support systems
- Operational readiness and training enablement
- Strategic advisory and management consulting

Why Zenphry

We combine business consulting and technology implementation in one firm. Our clients get a team that understands both the operational problem and the technical solution, without needing to manage two separate vendors. We are responsive, practical, and focused on outcomes that are measurable.

Service Area

Texas state and local government, with selective remote support and partner-enabled delivery through subcontracting and teaming arrangements.
